

## Unique design with a difference.

The Servicebag features a “double-walled”, moulded polypropylene body for strength and durability, while traditional leather side panels add a mark of quality and distinction.

The tools can be stored vertically for easy access in handy pockets.

The removable tool panel - “Double-walled” for extra strength - base divider, and supporting locking side stays are just part of Servicebag’s innovative design and functionality.

Servicebag with shoulder strap.

Servicebag's double-walled body, slide in tool panel and base divider.

Servicebag for quick and easy tool access.
